MIG WELDING

Transmig 400 Professional

TRANSMIG 400 Professional

The Transmig 400 is a three phase, constant voltage DC power source ideally suited to the fabrication industry. Performance, ruggedness and simplicity have been combined in this versatile MIG plant.

The unit comes as a ready to weld package that includes the power source, Tweco® 4 welding gun, work lead and shielding gas regulator. With so many features, the Transmig 400 offers the performance and reliability demanded by industry professionals.

Features:

- ▲ 36 fine welding voltage control settings
- ▲ Digital meter
- ▲ Fully enclosed spool cover
- ▲ Heavy duty 4 roll wire feed system
- ▲ Swivel mounted wire feeder with wheels
- ▲ Covered 8 metre interconnection cables
- ▲ 3 year gold warranty*

Part No: 706405
