MIG WELDING

Transmig 400HD Remote

TRANSMIG 400HD Remote

The Transmig 400HD MIG Welding plant has been designed to optimise the productivity of the metal fabrication industry. Rugged design, excellent performance and simplicity of controls have been combined in this versatile MIG welding plant. Solid wires up to 1.6mm diameter can be run at high duty cycles together with the ability to deliver high deposition performance with flux cored wires of up to 2.4mm.

The unit comes as a ready to weld package and represents superior value for money.

Features

- ▲ 36 fine welding voltage control settings
- ▲ Spot, latch and purge functions
- ▲ Heavy duty design and construction
- ▲ Dual inductance
- ▲ Volt and Amp Meters
- ▲ Genuine TWECO® 4 mig gun
- ▲ 4 Roll Wire Feeder
- ▲ 3 year gold warranty*

Part No: 704685
